

Arbaz Ajaz

PHP Laravel Developer

Driven and detail-oriented Backend Developer with over 3 years of experience specializing in PHP and Laravel. Skilled in building scalable web applications, optimizing server-side logic, and implementing advanced features using industry best practices. Expertise includes developing real-time calling applications, in-app rating systems, secure CSV-based data transfer, and background job processing for efficient task handling. Currently honing skills in a dynamic role at King Revolution Software House to deliver robust, high-performance solutions.

WORK EXPERIENCE

PHP Laravel Developer

King Revolution Software House

07/2024 - Present

Lahore

Achievements/Tasks

- **Project: Slick Call** – Enhanced a call-based application with real-time calling features and a robust in-app rating system, enabling users to efficiently rate call experiences.
- **SIM Transfer Functionality** – Implemented secure SIM transfer using CSV data files, ensuring seamless data integration and validation across user accounts.
- **Background Jobs** – Utilized Laravel's background job processing to handle data-intensive tasks asynchronously, improving performance and user experience.
- **Data Transfer and File Handling** – Integrated CSV-based data transfer for efficient bulk operations, enhancing scalability and reducing manual data entry.

Full Stack Web Developer

Medtronix Systems inc.

03/2023 - 07/2024

Sahiwal
